>> SLIDE 2: Financial Literacy and Employment

Financial literacy is a set of knowledge and skills to make effective and positive decisions about financial resources.

- Establishing a budget
- Savings
- Retirement planning
- Investment
- Debt management

>> SLIDE 3: Discussion Questions Preview

- Have you or someone you are assisting experienced financial barriers in trying to go to work?
- How did you or were you able to get through these barriers? What resources were there?
- More people want to work from home or create a business; what are some resources?
- What are some options to help people acquire support when working or keeping the support they have?
- Do you have waivers in your state that help with support while working?
- What are some other options for income that might be a stepping stone to employment or post-retirement?
